## Technical Skills

Python, Java, JavaScript, SQL, FastAPI, LangChain, LangGraph, React, GCP, Docker, PostgreSQL, Redis

## Selected Projects

### Research Assistant Agent

Tech: Python, LangGraph, FastAPI

- Built a stateful agentic workflow with retrieval, tool calling, orchestration and an evaluation pipeline
- Implemented embeddings and vector search with document chunking over a Chroma vector store, with citations
- Async FastAPI backend with PostgreSQL and Redis caching, deployed on GCP Cloud Run using Docker

## Professional Experience

### Backend Intern, Acme Corp

- Developed Python microservices using FastAPI and wrote pytest unit tests
- Added structured logging and retry error handling

## Education

B.Sc. Computer Science, Example University
